Delta County Public Library District
Strategic Plan 2017 – 2019
Adopted September 21, 2016

Mission

Serving and Empowering People
Providing Resources for Life, Leisure, and Learning

Executive Summary

This Strategic Plan is the result of vigorous and often-times passionate conversations about the future direction of Delta County Libraries. It provides vision and direction as we strive to maintain and improve services to our communities while recognizing the constraints of tax funding.

Many individuals shared their ideas, insights, and passions in the development of this Plan. Since Delta County Libraries is funded by the public for the public, we consulted the public about what the priorities and goals should be as we move forward. Library Staff contributed to this Plan by offering valuable insight into the usage patterns and preferences of patrons and the challenges of Library Staff. Their suggestions are an integral part of this Plan.

We have made every effort to develop a Plan relevant to our communities. The needs and preferences of our communities will change and funding levels will also present challenges. Realizing this, the Plan will be reevaluated and updated as needed. In order to have a vibrant and thriving public library district, the members of our communities must take an active role in supporting and serving our libraries. The Board of Trustees and Library Staff are always open to the ideas and suggestions of our community members.
