Getting Started with Libby
(eBooks and audiobooks for iOS and Android devices)

NOTE: You can also use Libby to send eBooks and audiobooks to your Kindle or Kindle app.

Here's what you'll need to get started:
1. A Delta County Library card.
2. The free Libby app from your device's app store (Google Play or Apple Store)
3. An active wi-fi connection.

Here's what you'll need to do:
1. Libby will guide you through adding your library and library card.
   a. You can look up your library card by searching for "Delta County" and select "Across Colorado Digital Consortium".
   b. Or you can let Libby guess (your device's GPS will need to be enabled) to find the "Across Colorado Digital Consortium".
2. On the next screen, choose the location 'Delta County Libraries' from the drop-down list, enter your library card number (no spaces), and **Sign in**.
3. Search for a book you'd like to read using the search box at top. You can also select 'Explore' to view collections or search by subject/genre.
4. Once you find a book to read, select **Borrow**. Books check out for 21 days by default, you can change this by tapping on the number. *If you select **Place Hold**, you will be notified when it is available.*
5. After borrowing you can select **Open book** (or audiobook) to start reading (or listening). Books can be **Read with** Libby or Kindle (follow the prompts to sign in to your Amazon account).
6. Go to **Shelf** to view your loans and holds.
7. Your loans are returned automatically on their due dates, but you can **Return** or **Renew** by tapping **Manage Loan**.
